Rishabh Raj

rishabhraj13951@gmail.com | +91-7488261069 | LinkedIn | GitHub | Portfolio

Skills

Languages: Java, Javascript
Technologies: React.js, Node.js, Tailwind CSS, REST APIs, GitHub, Postman
Databases: MongoDB, MySQL

Experience

Extion Infotech   June 2024 - August 2024
- Full Stack Developer Intern (Virtual).

Projects

Talkwave

https://talk-wave.onrender.com
- Developed a social media application using React.js and TanStack Query, optimizing state management to reduce server requests by 35%, boosting user retention by 20%.
- Styled the application with Tailwind CSS and Daisy UI to ensure a modern, responsive design.
- Implemented server-side functionality using Node.js and Express.js, with MongoDB for data management and storage.
- Integrated JWT-based user authentication for secure login and session management.
- Enabled dynamic post creation, and mood-based content display, using APIs for backend communication and Postman for testing.
- Added key social features such as user profiles, notifications, following/unfollowing, and profile updates to enhance user interaction and engagement.

Car-Rental-System

https://github.com/rishabh137/car-rental
- Developed a car rental management system using Java, applying object-oriented design principles to effectively manage car availability, rental transactions, and customer details.
- Designed and implemented a console-based rental application leveraging OOP techniques to streamline rental processes and enhance user interaction, resulting in a more efficient and maintainable system.

Certifications

Cisco Networking Academy
- Acquired comprehensive networking skills, including fundamentals, protocols, and security.

Education

Sant Longowal Institute of Engineering and Technology   August 2022 - Current
Bachelor of Engineering (Computer Science and Engineering)   Punjab, India

Sant Longowal Institute of Engineering and Technology   August 2019 - June 2022
Diploma in Computer Science and Engineering   Punjab, India
