SUMMARY

Full Stack Developer with nearly 2 years of experience, including internship, building and enhancing web applications for a hospitality SaaS platform. Experienced in Angular, TypeScript, Node.js, LoopBack and PostgreSQL, with contributions across booking engines, property management systems and admin portals. Improved hotel onboarding workflows, reducing setup time by 50%.

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, Java, C++, SQL

Frontend: Angular, React.js, RxJS, HTML5, CSS3

Backend: Node.js, Express.js, LoopBack, REST APIs, Socket.IO, WebRTC, JWT Authentication

Databases: PostgreSQL, MongoDB, MySQL, Redis

Core CS: Data Structures and Algorithms, OOP, DBMS, Operating Systems, Computer Networks

Tools: Git, GitHub, Postman, Selenium, Docker

EXPERIENCE

Full Stack Developer | Clerisy Solutions Private Limited, Chandigarh, India — Apr 2025 – Present

- Developed a hotel onboarding workflow in the admin portal to automate hotel setup, including admin site creation, credential configuration and default theme assignment, **reducing setup time for Admin and Sales teams by 50%**.
- Developed end-to-end features across the **International Booking Engine (IBE)**, **Property Management System (PMS)** and **admin portal**, building Angular components, developing REST APIs using Node.js and LoopBack, and managing PostgreSQL queries and database schema updates.
- Implemented configurable **Content Security Policy (CSP)** middleware for the International Booking Engine (IBE), supporting Report-Only and Enforcement modes to monitor and enforce security policies and mitigate cross-site scripting (XSS) risks.
- Implemented **GA4** ecommerce event tracking using **Google Tag Manager** across the hotel booking funnel, covering add_to_cart, begin_checkout, cart_item_modified, add_payment_info and purchase events to capture user interactions and booking conversions.
- Built **UpMate**, a JavaScript and Selenium automation tool that scrapes Upwork job listings and categorizes them by technology into Google Sheets, saving the team several hours of manual work weekly.

Full Stack Developer Intern | Clerisy Solutions Private Limited — Jan 2025 – Mar 2025

- Implemented a scheduled **cron job** to synchronize Property Management System (PMS) updates with the International Booking Engine (IBE) every 20 minutes, ensuring hotel data remained up to date.
- Gained an understanding of the hospitality SaaS platform, its architecture, and the interaction between the PMS and IBE.

PROJECTS

codeX – Real-time Video Conferencing and Collaborative Code Editor | Live Demo — May 2025 – Jul 2025

- Built a real-time video conferencing and collaborative code editor for pair programming and coding interviews using React.js, Node.js, WebRTC, PeerJS and Socket.IO.
- Integrated the Judge0 API to run code live inside the editor during sessions.

Talkwave – Social Media Application | Live Demo — Jun 2024 – Aug 2024

- Developed a full-stack social media app using React.js, TanStack Query, Node.js, Express.js and MongoDB with JWT authentication.
- Implemented dynamic posts, mood-based content, profiles, notifications and follow/unfollow features.

EDUCATION

Sant Longowal Institute of Engineering and Technology, Punjab, India

Bachelor of Engineering, Computer Science and Engineering — Aug 2022 – Jun 2025

Diploma, Computer Science and Engineering — Aug 2019 – Jun 2022
